- Note 1 The quick-connect tab has not been tested with a female connector, and the suitability of the combination should be considered in the end-use application.
- Note 2 The suitability of the actuator button material as an enclosure has not been investigated.
- Note 3 The switches provided with terminals that are to be used for printed circuit board connection have not been investigated as part of this report. The suitability of these terminals should be evaluated for compliance with the end-use product standard.
- Note 4 These switches have a contact gap of 3 mm or more.

Marking: Company name or tradename "EDK", catalog, model or part number, electrical ratings and the Recognized

Component Mark for Canada, C on the product or on the smallest unit container in which the product is packaged.
